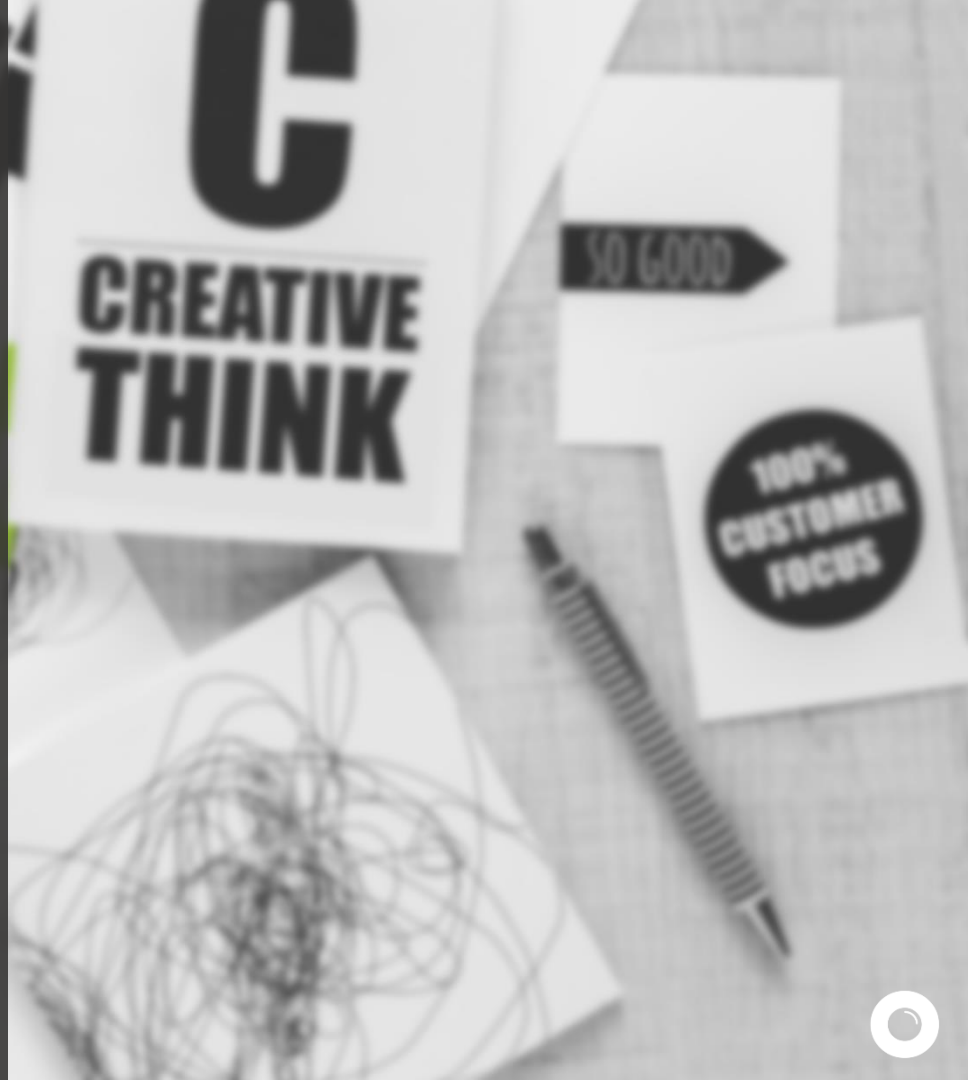
asioso test project

Congratulation

We were very happy about the interview so far and got a good feeling. For the next phase of our interview process we would like to invite you to implement a test task. This helps us to be better able to understand your strengths.

Good luck!



Your tasks

1. Please install the actual version of Pimcore
2. You can use the documentation from Pimcore or use bitnami for the first installation https://bitnami.com/stack/pimcore
3. Please create your first project (details below in this document)
4. Please send us your results and after that present us your test project with details about your methodology

Installation

Details of the installation, as well as how to create your first project in Pimcore can be found in their documentation:

https://pimcore.com/docs/pimcore/current/Development_Documentation/Getting_Started/index.html

Please Note:

If you have problems with local environment mentioned in the task you can use a virtual machine or any other PHP development environment.

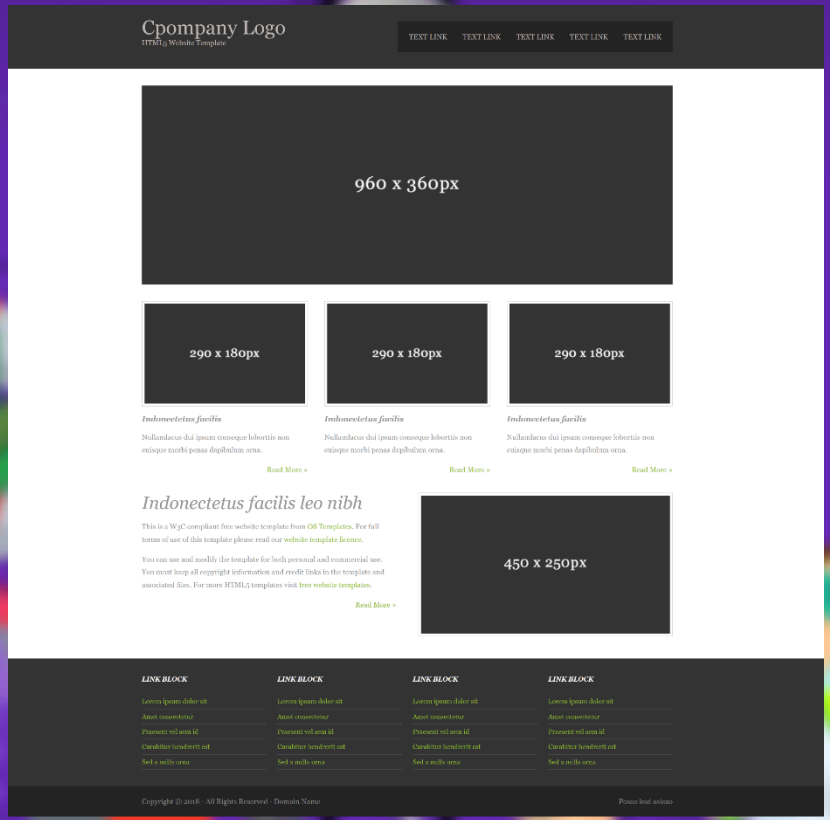
Twig templating engine **is required**

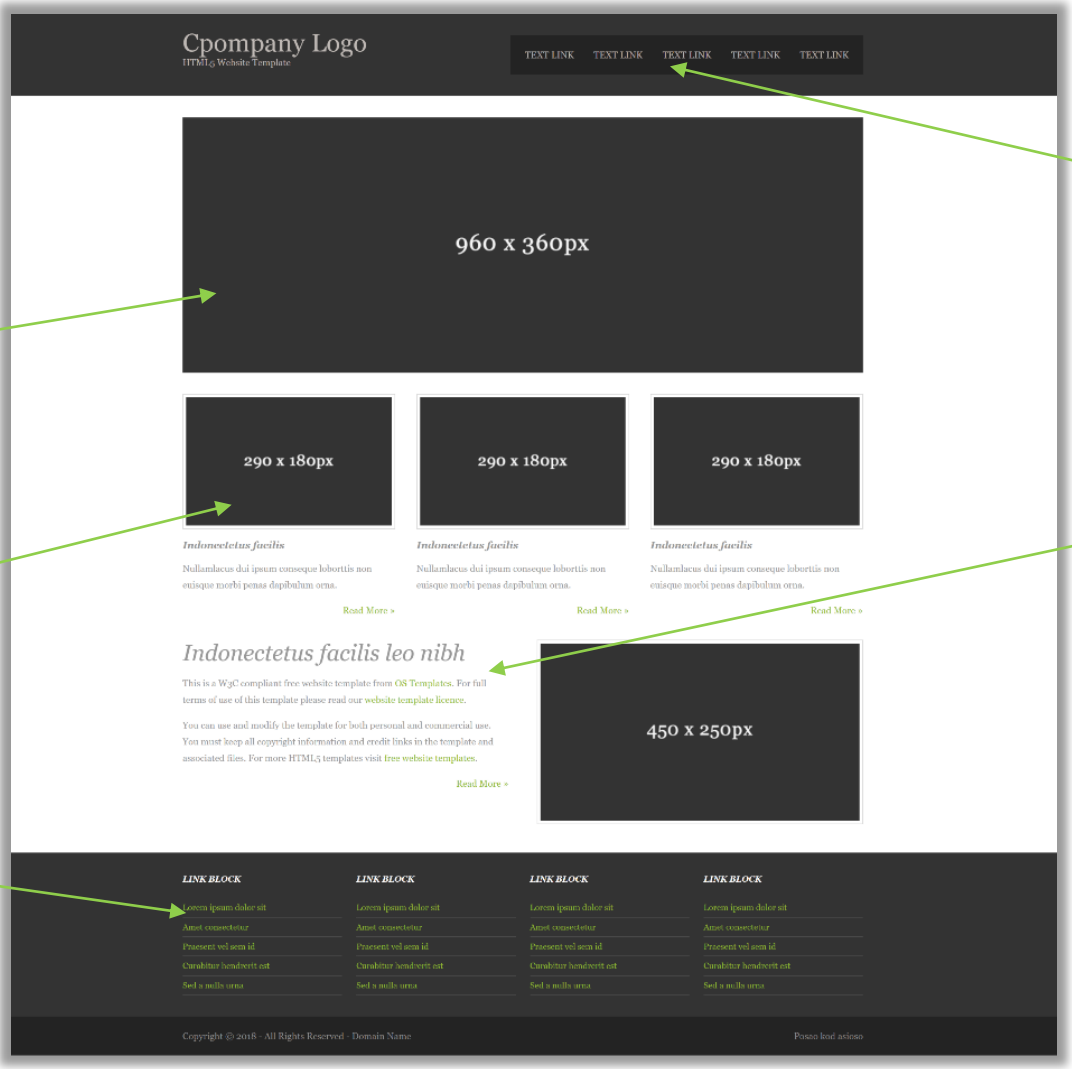
First Project

On the right side you find our test- template which you can download under
https://www.dropbox.com/sh/cj34749l8wjgwgj/AAAnRZhX4g0HDhvf1x5f4qmna?dl=0

Please implement this template in Pimcore and make at least two content elements (bricks), a header with navigation who reads the links from the structure and footer as a snippet so that we can write some text in Pimcore and this text will appear in the frontend.

As a reference you can find a demo example with demo code of a real Pimcore project under https://bitnami.com/stack/pimcore and also try a full functional demo on https://pimcore.com/en/try





Area Brick "Hero Teaser" where can be placed an Image with Text overlay

Should be automatically generated from the Pimcore Backend tree

News as Pimcore Objects

Area Brick "Text with Image" with options to place the image left or right

Snippet Include where Footer Links Can be edited by editor

Common

1. Please let us know if you agree with the task
2. Please send us you whole or partial results when you think ist finished
3. We will analyze your project and invite you for a presentation of your project

If you have any questions, please feel free to contact us under the address testproject@asioso.com

We wish you success!!!

we are a

Digital Agency

and we searching for motivated and talented people

our
values

That‘s importand for Us

"With asioso we are among the best in the market. That's why we search only for the best colleagues. We would be happy if you have the potential to be one of the best."

digital business #simple

With everything we do, we want to simply **inspire people.**
